The mquisitorial nature of the opium farm tended in the same direction. The farmer, accompanied by Chinese or Indian police, was in the habit of visiting the native boats (where quite a third of the population then lived) and private houses, in order to seize every ball of opium suspected of being sold without a licence. We have graceful occurrence, which reflects much dissubstituted the Chefoo Convention for the credit on our police arrangements. A regular-Supplementary Treaty, and junk owners and

SMOKING CONCERT AT THE CITY HALL

It is generally a pleasant duty to announce the formation of new institutions in our midst and wish them a career of success, because they denote the growth of the colony in some useful or social direction. It is not often, however, that, Da Costa, we can more heartily wish a vonture greater success than we do the Hongkong Smoking Concert Glub, which gave its first evening of entertainment on Saturday night in the St Andrew's Hall. RAUB MINES.

The following is Mr. Bibby's report for the fortnight anded Feb. 18th, 1892 : Raub Hole .- The work of cleaning out the flood debris is proceeding slowly owing to the large amount of timber carried down into the

working. The chamber (outrance to workings) is now cleared out, but the main drives are still too much broken to get into the workings. The timber about the shaft and chamber is very much crushed and braken up and it is doubtful whether it is worth while going to the expense of re-timbering the workings for the recovery of trucks and rails. The whole of the innwork of one of the frucks removered is hopelessly destroyed by the action of the acid in the water. On the 8th just we made a start to sink the new engine-shaft for the Ranb Hole. This shaft is the same size as the engine shaft west lode. This shaft is being sunk by confract by Chinese, the company finding and putting in the timber. A shed has been put over the shaft; windless fixed; collar of 8" and 8" timber fixed in position, and shaft mak 40 feet. Close timbered central and ladderway put in, in ten days. The shaft is 1st 7' clear of tember, and this work will compare favourably as to time with simi-

We had only a small seam of quarks about 2 in. thick on the footwall, but it has now made again and is fully 3 ft, wide of solid ore, all of which is being sent to the battery Angir-shaft is being sunk to meet this level; it has been sunk by contract 34 feet during the fortnight, and hope to have it sank the required depth, 34 fest during the ensuing fortnight. 's soon as this whatt breaks through to the level, stuping will be carried on from two funs, when a large amount

of crushing stuff will be sout to the battery. -

Engine Shaft .- The chamber at 150 feet is new completed, and erassent to intersect the Lode is being driven by contract; 14 feet has been driven since contract was started. The ground is bard black slate intersected with quarts leaders and requires blasting. There is a good deal of water making from back and face of crosscub. No gold has been seen in the leaders. The face of crossent is now in 24 from shaft. I expect to go 40 feet more before outling the lode. I am afraid the work at both this and "and Hole engine shafts will be very much delayed for want of larger pumps and the remainder of Battery.-This started to crush on the 8th 13th; since then it has been working 12 hours full time. No clearing up has yet taken place. Dans .- This work is proceeding slowly for

The petty Raja thing specially calculated to discourage them. who held this fort had a large quantity of stores So the matter stands to day. It may be that laid in for a siege, including water, which was carried to the fort in hollow bamboos. Pennefather demanded an unconditional surrender of the fort and twenty-four hours was given for the purpose. After 20 hours had elapsed, the commander of the fort took the eath of submission and that of allegiance, which consisted in killing a cook and nower. Ponnef ther and his officers made the Raja sign the treaty-while sitting on four kegs Pennorather, who was master of the language, gave the Malay Chief and his followers to understand that if they did not take the oaths of allegiance he would blow them and everybody to pieces as well as the whole of the town. Think-
